Objective

To obtain a challenging position in a reputable organization where I can utilize my technical skills, learn new technologies, and contribute effectively to the growth of the company while enhancing my professional knowledge.

Technical Skills

- Languages** : Java
- Frontend** : HTML5, CSS, JavaScript, React.js
- Backend** : Node.js, Express.js, REST API, JWT
- Database** : MySQL, MongoDB
- Tools** : Git, GitHub, Postman, VS Code, Bootstrap

Experience

Prodigy Infotech | *Full Stack Developer Intern* Jul 2025 - Aug 2025

- Developed two MERN stack projects focused on responsive design, API integration, and user-centric interfaces.
- Built RESTful APIs using Node.js and Express.js with JWT-based authentication and role-based access control.
- Gained hands-on experience in building full-stack applications with JWT authentication, RESTful APIs, and MongoDB database management.

Projects

JanDrishti - Community Issue Tracker | *React.js, Node.js, Express.js, MySQL, WebSocket.io, Bootstrap*

- Developed a full-stack community issue tracking platform using React.js and Node.js, supported by scalable **REST APIs** for efficient issue management.
- Enabled real-time issue status updates and interactive admin dashboards using **WebSocket.io**, ensuring instant synchronization between users and administrators.
- Implemented **JWT**-based role-based authentication to securely control access for users and administrators.
- Designed and optimized a normalized MySQL database schema to handle relational data efficiently under concurrent usage.
- Built a mobile-first, responsive UI using Bootstrap to ensure consistent usability across devices and browsers.

Abbrexify - Text Normalization and Abbreviation Expander | *HTML, CSS, JavaScript, Python, JSON, Bootstrap*

- Developed a text normalization and abbreviation expansion system for SMS, chat messages, and general informal text.
- Implemented **NLP**-based text processing and tokenization using **spaCy** to accurately detect and expand abbreviations.
- Built a **Flask**-based backend service to process text input and deliver real-time normalized output.
- Integrated the **Gemini API** to perform grammar correction and contextual refinement on processed text.
- Designed a clean, responsive user interface using Bootstrap to enhance readability and user experience across devices.

PKSPortfolio - Personal Portfolio Website | *HTML, CSS, JavaScript, Bootstrap*

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and academic background.
- Implemented structured UI sections including About, Skills, Projects, and Contact for clear navigation.
- Applied mobile-first design principles to ensure compatibility across different screen sizes.
- Optimized page performance and layout consistency across modern browsers.
- Deployed the website on **Netlify** with reliable hosting and fast load times.

Education

2024 – 2026	Master of Computer Application (MCA) NMAM Institute of Technology, Nitte (Nitte University)	<i>CGPA: 8.51</i>
2020 – 2023	Bachelor of Science (B.Sc) Bhandarkar’s Arts & Science College, Kundapura (Mangalore University)	<i>CGPA: 8.52</i>

Certifications

- Salesforce Agentblazer Champion (Level I) and Agentblazer Innovator (Level II) - Salesforce
- Microsoft The AINNOVATION 2025 - Microsoft
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle
