Objective

MCA graduate with knowledge of Java, JavaScript, Python, OOP, REST APIs, and databases through academic projects and internship experience. Seeking an opportunity to apply my programming and problem-solving skills while learning and contributing to software development.

Technical Skills

Languages	: Java, Python, JavaScript
Frontend	: HTML5, CSS, React.js, Bootstrap
Backend	: Node.js, Express.js, REST APIs, JWT
Database	: MySQL, MongoDB
Tools & Concepts	: Git, GitHub, Postman, Selenium, OOPs, SDLC, Data Structure and Algorithms

Internship Experience

Protriden Technologies | *Web Application Developer Intern* Jan 2026 - Apr 2026

- Developed web application interfaces using React.js, JavaScript, HTML5, CSS, and Bootstrap as part of full-stack applications.
- Built and integrated RESTful APIs using Node.js and Express.js to support frontend interactions, authentication, and JSON data handling.
- Debugged frontend and backend issues, identifying and resolving problems with application functionality and API integration.

Projects

EcoLoop - Waste Segregation & Circular Economy Platform | *MERN Stack, Bootstrap, Socket.io, JWT*

- Developed a full-stack waste management platform that enables citizens to report waste issues, request home pickups, schedule scrap collections, and participate in eco-friendly initiatives.
- Implemented real-time synchronization using Socket.io for waste reports, pickup tasks, recycling activities, and status tracking across Citizen, Collector, Green Champion, and Admin modules.
- Implemented JWT-based authentication, role-based access control, and responsive Bootstrap interfaces to ensure secure access and a seamless user experience across devices.

Flipkart Web Automation Testing Framework | *Java, Selenium WebDriver, TestNG, Maven*

- Built an automation testing framework using Selenium WebDriver and TestNG to validate key workflows of the Flipkart e-commerce platform.
- Automated critical user workflows including product search, filtering, product detail verification, and add-to-cart functionality.
- Organized reusable test scripts and test suites using TestNG with Maven-based dependency management for structured test execution.

BlogSphere – Social Blogging Web Application | *HTML, CSS, Node.js, Express.js, MySQL, Bootstrap, JWT*

- Developed a responsive social blogging web application using HTML5, CSS3, JavaScript, and Bootstrap with features for posts, comments, likes, dislikes, and user profiles.
- Integrated REST APIs with the frontend to support user interactions, post management, authentication, and data retrieval.
- Implemented admin functionality for user and post management, including deletion, disabling, and content moderation.

Education

2024 – 2026	Master of Computer Applications (MCA) NMAM Institute of Technology, Nitte (Nitte University)	CGPA: 8.63
2020 – 2023	Bachelor of Science (B.Sc) Bhandarkar’s Arts & Science College, Kundapura (Mangalore University)	CGPA: 8.52

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - **Oracle**
- Postman API Fundamentals Student Expert - **Postman**
- 100 Days of Code: The Complete Python Pro Bootcamp - **Udemy**
